SENIOR SOFTWARE DEVELOPMENT ENGINEER

AUDIBLE FINTECH (PAYMENTECH)

Audible, Inc. – B13

Newark, NJ (Onsite) | Job ID 10535237 | $158,100 – $213,800 USD annually

ABOUT THE ROLE

As a Senior Software Development Engineer, you'll design, develop, and refine the technology that keeps Audible one step ahead of listeners. You'll drive the team forward, guiding developers, and building innovative, scalable solutions that power Audible's platform and bring thousands of stories to millions of listeners worldwide.

ABOUT THE TEAM

The Audible Fintech (PaymenTech) team owns the systems that power royalty payments, recoupable advances, and financial reporting across all of Audible's marketplaces. We build and operate the full payment pipeline — from ingesting royalty transactions to orchestrating disbursements and creating vendor invoices and payments in Workday. We are migrating Audible's financial systems onto Amazon's Digital Acceleration (DA) platform, unifying contract management, payments, advances, and reporting into a single, scalable, and auditable ecosystem.

WHAT YOU'LL DO

- Design, develop, and test software components and applications
- Collaborate on an agile engineering team and write scalable, maintainable code
- Work with stakeholders to launch customer-centric solutions
- Utilize technology to solve complex problems and deliver high-quality code
- Clarify technical requirements and assess development estimates
- Conduct code reviews and provide constructive feedback
- Foster continuous improvement in software quality and product maintainability
- Mentor and lead developers

BASIC QUALIFICATIONS

- Experience with AWS technologies
- Bachelor's degree or above in Computer Science
- 3+ years' experience developing and deploying distributed, multi-tier applications

PREFERRED QUALIFICATIONS

- Experience delivering large, cross-functional, customer facing products
- Experience leading complex software or computing infrastructure from concept to delivery
- Strong problem-solving skills in complex and ambiguous situations
- Full stack proficiency (e.g., Java, NoSQL, HTML5, CSS3, JavaScript, node.js, React)
- Competency at delegating work in parallel
- Commitment to high-quality standards (documentation, unit testing, code reviews, test automation, CI/CD)

ABOUT AUDIBLE

Audible is the leading producer and provider of audio storytelling. We work with some of the world's leading creators to produce and share audio content that inspires millions of listeners. We are a global company with an entrepreneurial spirit and a commitment to inclusion, creativity, and building more equitable communities.
